

## Graduate Opportunity in Civil Engineering

Geomarine are looking for locally qualified persons a recent graduate with a civil engineering degree for a large construction project in the Bailiwick of Guernsey. The position is temporary for the construction period of 12 to 18 months but could become permanent for the right candidate

The successful applicant would be involved with all aspects of construction including surveying, establishing controls and setting out, levelling, quality management, record keeping, remeasuring works and general assistance to Site Managers and Engineers.

The ideal candidate should have the following skills set:

- A Civil Engineering Degree programme
- Previous experience in construction is desirable but not completely necessary
- Confident and effective communicator
- Good level of computer literacy
- A hands-on, can-do approach to work, with a willingness to learn and assist,
- A good team player,
- Ability to multi-task with strong organisational skills and excellent attention to detail,
- Punctual, reliable and flexible.

If you are interested in this position, please forward an up to date CV and covering letter demonstrating your ability of the above, to [enquiries@geomarine.gg](mailto:enquiries@geomarine.gg).

Deadline: Applications should be received before the end of July 2017, with a view to commence work in August.
