PROPOSAL

Guide Price: £275,000, subject to contract

DRAINAGE

It is our understanding that to implement the proposed scheme, this will require the diversion of an approx. 450mm sewer

We have been informed that positive discussions have taken place with Thames Water, who are happy with a diversion in principal, pending that there is a 1-metre buffer, however, this will require the submission of an application

We strongly advise all interested parties to carry out their own due diligence surrounding this point

VAT

It is our understanding that the property is not elected for VAT

OFFERS

To be sent via email or post detailing a proposal, timescales, method of funding and solicitor details
