KEY FEATURES

The Harley-Davidson® CVO™ Softail® Convertible is a limited-production custom motorcycle that can be configured for all-day touring, two-up cruising or solo profiling by adding or detaching key components, which can be easily removed or installed without tools.

The Softail® rear suspension mimics the clean lines of a vintage hardtail frame but offers the comfort of modern suspension that is hidden under the chassis.

The rigid powertrain allows tight packaging of the engine and frame and creates a solid connection between the rider and the power that moves the motorcycle.

- Chrome Accessories
 - Clutch line and brake line clamps
 - Shorty chrome dual-exhaust with slashdown mufflers and heat shields
