- Dual red LED lights combine the stop/turn/tail functions
- Side-mounted license plate
- Low-profile tank console with electronic speedometer

KEY FEATURES

Re-introduced in 2010, the Dyna® Wide Glide® motorcycle is all about attitude. Its tough, dark styling and retro feel, along with a retro price tag, give riders the confidence to sit low and stretch out.

The Wide Glide® is raw and true to its roots with a chopped rear fender, black rims on 40-spoke laced wheels, a black tank console, "Tommy Gun" exhaust, beefy, raked-out forks and a swept back sissy bar. Throw in the old-school Flame paint scheme and heads are sure to turn.

But, this bike is about more than just looks. 103 cubic inches of V-Twin power, lowered suspension, internally-wired handlebar with 4-inch riser and forward foot controls offer an awesome ride. And the truly attractive sticker price provides amazing value.

- 6-speed Cruise Drive® transmission
- Exposed under-seat battery box
- Exposed rear coil-over shock absorbers
- Forward-mounted rider footpegs with brake and shift levers
- Optional Harley-Davidson® Smart Security System with hands-free security fob
