KEY FEATURES

From the double-barreled stare of its twin headlamps to the knobby tread of its burly tires, the Harley-Davidson® Fat Bob® makes a statement that is not subtle. But this motorcycle offers more than attitude. The rigid steel backbone of its Dyna® frame, a pair of thick 49 mm fork legs and chassis geometry that's tuned to turn make the Fat Bob a cruiser willing to hunt for corners and a blast to ride. Dual front disc brakes haul the Fat Bob down in a hurry.

- 6-speed Cruise Drive® transmission
- Exposed under-seat battery box
- Forward-mounted rider footpegs with brake and shift levers
- Optional Harley-Davidson® Smart Security System with hands-free security fob
- Optional Anti-lock Braking System (ABS) (factory-installed)
- Optional Engine Idle Temperature Management Strategy (EITMS) (Dealer activated option)
