KEY FEATURES

The Harley-Davidson® CVO™ Softail® Deluxe model combines the clean lines of the Harley-Davidson Softail® chassis and a distinctive Art Deco-style paint scheme with a high-performance engine and tour-ready technology. The result is a premium custom motorcycle that's certain to turn heads as it racks up the miles. Its low center of gravity and compact rider triangle makes the CVO™ Softail® Deluxe an ideal option for riders of smaller stature. Convertible components make it quick and easy to transform the CVO™ Softail® Deluxe from a touring machine to a boulevard cruiser. Heart and soul is provided by the largest-displacement powertrain offered by Harley-Davidson, a Twin Cam 110B™ engine.

The Softail chassis mimics the clean lines of a vintage hardtail frame, but utilizes rear suspension control provided by coil-over shock absorbers mounted horizontally and out of sight within the frame rails. The rigid-mounted, counter-balanced powertrain creates a solid connection between the rider and the power that moves the motorcycle, enhancing the emotional experience of riding.

- Electronic Cruise Control
- Chrome Accessories
- Black high-torque 1.4kW starter
- Braided stainless steel brake and clutch lines
- Harley-Davidson® Factory Security System
- Harley-Davidson Museum® Gold Package
