- CVO™ carryout saddlebag liners
- Keyless ignition and the H-D® Factory Security System

KEY FEATURES

It's a challenge to create a super-premium audio system capable of both shocking volume and outstanding sonic quality. Design that system and then mount it on the most desirable factory-custom bagger ever built, and you've got the 2015 CVO™ Street Glide™ model. Twelve speakers. Two 300-watt four-channel amplifiers. Unique static and dynamic equalizers and a sophisticated midrange DPS cross-over to give music greater clarity and a more natural sound at all volume levels. Tunes from The Strypes to Shania Twain may sound better than you've ever heard before.

The CVO team has turned the entire Street Glide up to 10. Custom features include polished Aggressor custom wheels, extended saddlebags, Airflow Collection accessories from hand grips to muffler caps, a custom CVO™ seat, Daymaker™ LED headlamp and Wind Splitter windscreen. This plus all the Project RUSHMORE features, including an iconic Batwing fairing with Splitstream vent to reduce head buffeting and the Boom! Box 6.5GT infotainment system with Touchscreen and GPS. Top it off with an intricate paint scheme and the added exclusivity of four color options.
