### KEY FEATURES

The Softail Slim® represents the Harley-Davidson® Softail® motorcycle paired down to its essential elements in the style of custom bobbers of the 1950s, from its narrow rear end to its trimmed front fender, solo seat and minimal chrome. With the combination of a 23.8-inch seat height and rider footboards, the Softail Slim® comfortably fits a wide range of riders.

The Softail rear suspension mimics the clean lines of a vintage hardtail frame but offers the comfort of a modern suspension that is hidden under the chassis. The rigid powertrain allows tight packaging of the engine and frame and creates a solid connection between the rider and the power that moves the motorcycle.

- Rigid-mounted, air-cooled, 1690 cc Twin Cam 103B™ counter-balanced engine with Automatic Compression Release (ACR) rated at 97.4 ft. lbs. peak torque at 3000 rpm.
- 6-Speed Cruise Drive® transmission
- Optional Smart Security System with proximity-based, hands-free security fob
- Optional Anti-lock Braking System (ABS)

### SPECIFICATIONS\*
