Subject: Public consultation on the immigration rules

To whom it may concern.

I am emailing from the Hackney Migrant Centre. The following is feedback from a visitor at the Drop-in Centre today.

It is hard to know under which grounds to make an application without using a solicitor. This costs money which I don't have. In my experience I have had solicitors who have not been reliable and in one case I believe it to have been a scam.

It is difficult to understand what evidence I need to have to prove my case.

I am not at all confident with computers and would not attempt to use an online application.

Best wishes
