Description:

The Aqua R Round Thermostatic Shower Valve is constructed from brass and finished in highly polished chrome. The thermostatic cartridge maintains showering temperature to +/- 2c, giving a stable outlet temperature. Automatic shut-off in the event of cold water supply failure, to prevent scalding. Temperature factory set to a 38°C.

All dimensions are approximate and subject to normal ceramic variation. Although every effort is made not to change the above product specification, Lecico reserve the right to do so without prior notification if necessary.
