Key features:

- Waterless
- Includes Cartridge, service key, urinal adapter, back nut, knuckle joint, Steri Klear pipe pod.

Description:

Where water saving is the objective, why not consider converting to a waterless urinal. It requires no water supply and its unique design also reduces splash-back and prevents debris from entering the cartridge. You could save up to 150,000 litres of water every year.

General information and maintenance

- The cartridge cannot come into contact with bleach or harsh cleaners.
 - Spray and wipe down daily with a cleaner specifically designed for use with waterless urinals.
 - Every 1-2 months the cartridge should be removed and drain should be flushed with 10 litres of water and a fizzy urinal block. Cartridge can then be reinserted.
 - Depending on usage levels the cartridge should be replaced every quarter and the below should be done -
1. Remove old cartridge with the provided key.
 2. Flush with a 10 litre bucket of water and a fizzy urinal block
 3. Rinse and recycle cartridge.
 4. Insert new cartridge and activate with 1 litre of clean water.

All dimensions are approximate and subject to normal ceramic variation. Although every effort is made not to change the above product specification, Lecico reserve the right to do so without prior notification if necessary.
