

WATERLESS CARTRIDGE

Product Code	WLESSCART
Material	Mixed
Extras	40cm bowl - URWALES40 50cm bowl - URWALES500 60cm bowl - URWALES600 Waterless set URWALESSET

Description:

A robust, high performance dry valve. Provides safe, long lasting, low odour performance. A waterless urinal is ideal for water conservation, saving up to 150,000 litres per year.

Cartridge technology dissolves with use, this provides a visual cue that helps you know when to change the cartridge.

38mm for standard 1 ½" BSP waste outlet

Key features:

- Save up to 150,000 litres per year
- No water required
- Dependant on use, the valve will need replacing once per quarter

General Information & Maintenance:

- The cartridge cannot come into contact with bleach or harsh cleaners.
 - Spray and wipe down daily with a cleaner specifically designed for use with waterless urinals.
 - Every 1-2 months the cartridge should be removed and drain should be flushed with 10 litres of water and a fizzy urinal block. Cartridge can then be reinserted.
- Depending on usage levels the cartridge should be replaced every quarter and the below should be done:
1. Remove old cartridge with the provided key.
 2. Flush with a 10 litre bucket of water and a fizzy urinal block
 3. Rinse and recycle cartridge.
 4. Insert new cartridge and activate with 1 litre of clean water.
