**Organisation Name:** Bootle Parish Council

**Comment text:**

We note the current proposals and support the wish to reduce the number of councillors to enhance the transparency of responsibility of those councillors for their electorate. We note the reduction in cost of operating the council this reduction will bring. We note that the proposed ward boundaries for the Bootle Ward do not coincide with the Parish Boundary for Bootle on the southern edge . We propose that this boundary should be changed so that it does align with the Parish Boundary. The effect is to bring a small number ( about 4 ) of dwellings south of the River Annas in the hamlet of Annaside in to the Bootle Ward. Like their neighbours on the north of the river, they have to travel through Bootle Village to get to the rest of the county.
