### Comment text:

In general we support the principle that district wards be co-terminus with county divisions. However, we objected at the time to the creation of the Lapworth & West Kenilworth county division, which linked a small part of urban Kenilworth with a large rural area with which it had few community ties and no transport links. For this reason, we preferred the previous proposal for new district wards, which would have split Lapworth & West Kenilworth into a two-member "Abbey" ward (Kenilworth & Burton Green) and a one-member rural ward. With the planned scale of housing development in both the new St John's and Park Hill district wards, both will rapidly become too large thus necessitating further review of district ward boundaries. When this happens, the opportunity should be taken to break up the Lapworth & West Kenilworth ward, and revert to the previous situation where Kenilworth (incl Burton Green) is split into three roughly equal wards. Submission from Kenilworth and Southam Liberal Democrats.
