

Warwickshire County

Personal Details:

Name: Michael Barge

E-mail: [REDACTED]

Postcode: [REDACTED]

Organisation Name:

Comment text:

I am a resident of Rugby, and have focused my submission on this area. I have, however, used my limited local knowledge to come up with suggestions for both the Warwick and Stratford districts. My proposals tend to favour two-member seats in the urban centres, although this is not universally the case. I have suggested names that I feel best represent the areas. In towns this has meant the use of compass point references, as often the name of a single part of the town does not accurately describe the entire division. For example the current "Brownsover" division in Rugby covers a much larger area than that recognised as Brownsover by a resident of the town. The naming of some rural areas was done with some reluctance, with the "Fosse" and "Feldon" names being rather vague and lacking in local relevance. Unfortunately the divisions are just too large and diverse, without a particular focal point, to suggest any viable alternative. The large forecasted population changes, particularly around Rugby, caused some problems, and not all of my proposed divisions are within the 10% quota in both 2014 and 2020. They are, however, all either within the quota by 2020 or, in the case of "Rugby North and Clifton", going to be over in 2020 due to a huge new housing development in that area. I do feel that this is justified, as it would be unfair to over-represent the division now with only a presumption of population growth to work with. It was with some regret that I included Binley Woods in the "Fosse" division and Cawston in the "Wolston, Cawston and The Lawfords" division. This was, however, necessary to ensure that they were within the quota, and both are large enough settlements not to be overlooked in these divisions. The new boundaries for Rugby Borough elections should mitigate the impact on residents of Binley Woods. The inclusion of the built-up parts of Cubbington parish in a division including areas of Leamington town is justified by the fact that the former has essentially become part of the later, with them forming one contiguous urban area. Full details of my proposals can be found in the attached Excel spreadsheet.
