For the attention of the Local Government Boundary Commission for England: Elmbridge Review
This response is in relation to the proposed boundary for Walton-on-Thames only. I made a submission on 31 March 2015 in respect of the first draft map, and made the comments that the Rydens area comprising of roads in Walton South area should be kept together. I am pleased the Commission took account of those representations and the new draft map for Walton South includes these roads. Many residents of Walton South ward have written to me to say they are also pleased about this. I was additionally pleased the Commission proposes to keep the other part of Walton South, namely the Ashley Park area in Walton South ward. I also agree the railway line makes a strong boundary. Therefore I wish to record my support the Walton South ward comprising the area defined by the Commission in their draft recommendations of 30 June. Kind regards, Christine Elmer Cllr Walton South ward
