Comment text:

I write as Chairman of West Ilsley Parish Council. As a parish we are to be included in Basildon & Compton Ward, having previously been in the Downlands Ward. We can see how the title "Basildon & Compton" might have reflected the east and western ends of the area to the east the A34, north of the M4, however when West Ilsley is included in the Ward, we would prefer a more inclusive title. Given the enlarged footprint of the proposed ward by adding our parish, we would like to see the Ilsleys acknowledged in the ward name since we, East and West Ilsley, have become the new western extremity of the ward. Alternatively perhaps there could be a re-selection of name to something more generic as used, for example, in the case of Downlands. We do not want to be the forgotten annex of an eastern-centric ward, out on a limb the other side of the A34.
