### Comment text:

As a resident of White Post Court I am opposed to the proposed changes. The three streets, Hooke, White Post Court and Watson clearly sit in the town they do not have a local connection with the villages of Rural West Ward. They would be best served with being included in Rowlett Ward. In a few years time there will be a large development west of Corby which will alter the balance yet again in favour of Rural West ward as this development will have closer links with the villages (it could be classed as a small village in its own right).
