Comment text:

I am submitting a scheme for all wards on behalf of the group of thirty Conservative councillors. We believe that the scheme submitted by Croydon Council contains a number of serious flaws and as a group we felt unable to support it. Our submission sets out an alternative scheme for all wards and is closely based on the council's '16 places of Croydon', which is the foundation upon which its Local Development Framework was built. I have three documents to submit, two of which are larger than 5MB. They cannot be reduced to 5MB due to the inclusion of a number of maps whose resolution is important. I attach one document - the data spreadsheet - and have placed all three in a Dropbox accessible here:
