**Subject:** boundary review kader ward middlesbrough

Dear Sir, I should like to make representation on the above issue. The criteria called for to justify ward boundaries falls into two categories to my understanding, they being clearly defined borders and communities.

The ward has clearly defined borders being bounded on three sides by main roads and a beck on the other. With regard to communities the ward is represented by two Councillors both who have lived in the ward for over twenty years, one having represented this area for over 45 years. Surgeries are held every week in the ward towards its centre and both are Governors at Kader School. We also attend every Kader community council meeting myself as Secretary and the social activity there has expanded with a determination on behalf of its members to keep going despite our funding being slashed. I hope this can be taken into consideration when coming to a decision.

Cllr Ron Arundale ward Councillor
