"My proposal for the number of councillors would be seven (7).

Six (6) would be Sufficient but could be problematical with 50/50 splits sow one extra to brake deadlocks.

Each councillor would have more air time to make there points, or meetings could be shorter.

It would be less confusing for the electorate and make for more accountability.

We all have to make do with less in these times of recession our council should reflect this.
End."
