

Submission county boundary proposals Warwickshire

As community centre director's we write to object to the proposals for the removal of Wembrook ward.

As a centre we changed the name of the centre to Wembrook community centre so that it reflects where it sits with in the county division, and that the county know we are delivering for the uniqueness of the area,

As a centre we serve Caldwell, new and old hill top and small areas of Attleborough,

We support residents with health and well being clubs for older people from the area and young carers.

We have over 200 young people from the local area using the centre which reduces anti social behaviour and is a safe environment for them to be in.

Two years ago county was disposing of it building's we now lease the building from county.

The residents of the area joined with us to save the centre and look to it as a hub for them with the removal of the Wembrook ward as a county division the future of the centre will become uncertain as there would be no county ward of Wembrook so we would be unable to apply for funding for new and old hill top as they would be in the more affluent ward of arbury under your proposals, so the much need funds for residents would no longer be available.

The big local lottery has recently award hill top and Caldwell £1 million pounds and much work has been done to bring residents together with your proposal this will now disengage residents from the areas and cause confusion.

Wembrook neighbourhood watch is set up to support all three areas and works with the residents, neighbourhood watch is set up on county boundary's this would have to under your proposal disband leaving residents vulnerable

Under your criteria it says about community tenure your new proposals does not take this into consideration it splits a community adrift

As centre director's who support residents needs and wellbeing we ask that you reconsider these proposals

Your sincerely

Bill sheppard director
