Subject: Ward changes

AVDC

Having lived in Wendover my whole life - 66 years, I also have very strong connections with Halton, therefore I feel my thoughts below should be provided.

I write to firstly not agree that the village of Halton should be attached to Aston Clinton. The communities of Halton and Wendover should remain together as not only do the two attach to each other physically, there is a long standing bond in place. Halton has no attachment of housing with Aston Clinton, and I cannot think of any good reason to attach two separate villages.

Secondly Stoke Mandeville does not end at the Station Road roundabout, there is a continuous unbroken line of houses opposite the roundabout, and houses well beyond Station Road towards Wendover, Geographically these properties should remain within Stoke Mandeville. There are plenty of fields which clearly separate Stoke Mandeville from Wendover.

Please include both my objections in the Consultation.
