Firstly to say, how come this is the first that local residents have heard of this other than rumours, surely City wide, Town wide consultation should have been carried out as our local councillors have singularly failed to let their electors know. Secondly why on earth cause so much upheaval for such a small City as Ripon in adding another ward. If a reduction in the number of councillors is the formula here then what better to just half the number of councillors in each ward leaving the 3 wards intact. Whilst it appreciated that there MIGHT be massive house building on the 'former' (if and when it is) army camp, then that is for Spa ward to cope with, there is no rational really to move boundaries this much. Thirdly, if these boundaries are to be implemented, what about incorporating the New Park and Quarry Moor Park into Ripon along with the Bellwood House and Cottages as they all feel that they belong to Ripon so why not make them part of the City despite them being JUST outside the City boundary proper. This way you would also gain another polling station, that of the Quarry Moor Hut, and shouldn't they have been surveyed before being moved from Bishop Monkton to Fountains
