Organisation Name: Tockwith with Wilstrop PC

Comment text:

This is the response from Tockwith with Wilstrop Parish Council. We are concerned that the boundaries of the ward have been extended to other Parishes. This will mean that our District Councillor could find it difficult to represent electors as he will have more Parish Councils to deal with. Also with planned development within the parish representing a near 40% rise in population we suggest that there should be NO change to the ward boundaries.
