Comment text:

You ask for naming suggestions. The current draft report uses the ward name of 'Whitestone & Ide'. I feel that this rather excludes three other parishes. Slightly better would be Whitestone to Ide but this excludes Dunchideock and Shillingford St. George. I would suggest 'White Forest' as this spans the whole ward from Whitestone parish in the north to the area of Haldon Forest at the southern tip. From ancient to modern times the area has been worked for timber and minerals. The name Whitestone refers to the salt ways running from the Teign estuary to Crediton.
