Comment text:

I currently live at M9 8NQ in the Crumpsall ward, and can see that the boundary move would change this to the Harpurhey ward. Moving the ward boundary to include my estate will effect my house price, insurance premiums and the reputation of the area I live in currently deemed as Blackley Village. I am likely as are other home owners in the area to want to move out of the area if associated with Harpurhey. Waterloo Street down Slack road should be the boundary of the ward with the west side in Hapurhey and the east Crumpsall. I am sure other residents on the estate would also feel the negative effects of this boundary change and would prefer that our homes are kept within the Crumpsall Ward. Is this all ready agreed and the changes will happen irrespective of the how residents and voters feel? Is moving the boundary to compensate for adding in more deprived areas of Moston????
