Annotation 1:

Comment text:

My name is Maggie Jackson and I am Chair of the Bishops Walk Residents' Association. On behalf of the road's association I am submitting a request to be considered part of Shirley South ward. I have marked the entrance to Bishops Walk, 1. There is a clear identifiable boundary at present as Bishops Walk is the last road off Shirley Hills Road. This planned change seems to include all the other roads off Shirley Hills and omit this one. The new boundary line seems very arbitrary by moving just this one road of approximately 30 houses into a different ward. 2 Our feeling is that it would be more logical to make the boundary Gravel Hill which would encompass the properties leading off Abbot's Green. This is not felt to disrupt the principle of electoral equality. 3 In terms of community groups we have been active in meeting on a regular basis with other Shirley associations to share information and to co-ordinate responses to proposals from the local authority. We consider our best interests would be served by remaining in a Shirley ward rather than the new Selsdon and Addington Village Ward.
