Comment text:

Vale of Red Horse is a natural local community with long term familial, economic & community conexions. The very name of the Vale itself is worthy of continuity in terms of sense of community and thus democratic decisions should be able to be relevant to the people of that community. Extension 1 allows for a 'smoother' boundary with recognisable features such as the Fosse Way assisting. Extension 3 is probably outside the scope of this review but seems to make sense as there seems to be close affinity between this part of Oxfordshire and the Vale.
