Comment text:

Stilton Parish Council welcomes being reunited with Folksworth as we already share services and are linked in many ways. However, we regret the suggestion of 2 Councillors. We have experience of this as we have 2 County Councillors and there are inherent problems. It very much depended on the good will of the Councillors, their personalities and their political agreement. If they belong to different parties the residents find themselves used as pawns in a never ending battle for supremacy. However we cannot find another solution to the numbers and agree that the interests of the villages are similar, we share health services, ecclesiastical boundaries, secondary education provision and Folksworth uses the shops and other services available in Stilton.
