Comment text:

The Suffield Park ward takes in the Roughton Road Area which is a long way away. The demographic profile of Suffield Park and the Area of Cromer south of Norwich Road is entirely different. There has been considerable building in this area since Suffield Paark was the only built up area. The imbalance is compounded by the vast new housing estate currently under construction on Roughton Road. This will mean there are more houses outside the Suffield Park Area than in it, all grouped together as one ward.
