Subject: Proposed changes to Bromsgrove Council Wards

I can see no requirement for more than one representative for each ward. Where committees are required as in the case of the High Street Regeneration, volunteers from the public can be invited to form a committee. Nor can I see any reason why these representatives should be paid for their services. However I agree that they should receive a travel allowance to cover their costs. Many people who run, Sports Clubs, fund raising charities and many more services don't get paid, however they also provide a valuable service for the community.

Bob Stather.
