Subject: Bromsgrove District Council Ward Boundary Commission Review

Sir,

I wish to bring again to your attention the matter of the balance of representation between the councillors for the Belbroughton village and Fairfield village.

There are 2110 voters in total of which 1336 or 63% live in Belbroughton and 774 or 36% live in Fairfield.

Surely the number of councillors must be in proportion to the voting population?

Therefore there should be 9 councillors for Belbroughton and 5 for Fairfield and not the 8 to 6 split that you still are proposing.

Regards,

Roger Adey
