Comment text:

Having lived in the area for over 30 years I feel able to comment on the local LGBC for Rochford. I have just read through Councillor Christine Masons comments on this subject and would like to concur with all that she has written. Since examining various documents on this subject I believe that the three main criteria - electoral equality, pattern of wards and communities identities and electoral arrangements is a fair distribution on condition that the proposals reflect not just the councils current arrangements but also the likely trends and plans for the future. Looking at the boundary change, which is less than before, I can only assume that there is further population intensification. In fact various building projects, e.g. Clements Gate proves this.
