### Comment text:

Regarding the boundary of Arlington Parish, I am opposed to the alteration of the boundary on the south-east side. The A22 should remain as the natural boundary of Arlington Parish on the east to south-east side. The proposed new boundary would split Abbots Wood and associated woodland between two parishes. This Forestry Commission land is used by Arlington Parishioners and is much less likely to be used by Eastdean parishioners. Issues which arise regarding this woodland are addressed by Arlington Parish Council.
