| Product description | <ul style="list-style-type: none"> <li>➤ SCHALL-EX L-15/30 OS</li> <li>➤ Can be screw-fixed to lower door surface</li> <li>➤ Unrivalled sound reduction values: <ul style="list-style-type: none"> <li>➤ - 52 dB with 7 mm sealing height</li> <li>➤ - 51 dB with 15 mm sealing height</li> </ul> </li> <li>➤ For sealing heights up to 20 mm</li> <li>➤ Sturdy inner mechanical parts Parallel actuation and optimum floor level adjustment</li> <li>➤ Clip-on sliding actuator for safe start-up</li> <li>➤ Seal adjustment without tools</li> <li>➤ Installation quicker since no need for press plate</li> <li>➤ For fitting: in the groove</li> <li>➤ Actuator: on hinge side</li> </ul> |
| Function            | hinged door                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Door leaf material  | Wood<br>Metal                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

### Technical data

|                            |                               |
|----------------------------|-------------------------------|
| Maximum length (mm)        | 2335                          |
| Minimum length (mm)        | 235                           |
| Standard lengths (mm)      | 708 , 833 , 958 , 1083 , 1208 |
| Reducibility               | 125                           |
| Groove width x height (mm) | 15 x 29                       |
| Actuation                  | Single actuation              |
| Maximum travel (mm)        | 20                            |
| Maintenance free           | Yes                           |

### Installation

|               |           |
|---------------|-----------|
| Mounting type | In-groove |
|---------------|-----------|
