16.10.2017 Monday

Not a bad deal was made on Monday on GBP / USD pair. From the very morning the price was near the lower border of the channel, as soon as the pending purchase order worked out, the price quickly began to go up, and reached the take-profit in just a few minutes.

17.10.2017 Tuesday

An interesting day was on Tuesday when on the AUD / USD pair were made two deals in one direction at once. Initially, a buying order was opened, taking into account that the price would reach the upper limit. That's exactly what happened.

The second deal was opened when, after the price fell, a pin bar appeared, pointing to the growth of the currency. Take-profit we placed at the same place as in the previous deal, but the price did not reach it and we had to close the order manually.

AUD/USD	buy	0.7842	0.7858	+ 3,2%
AUD/USD	buy	0.7834	0.7851	+ 3,4%

18.10.2017 Wednesday

A modest but still profitable deal was on Wednesday on the EUR / USD pair. Of course, we expected more from this deal, but the pin bar, which appeared during the movement, greatly embarrassed us, because it hit a wall of the upper limit of the correction, which was not so long ago. But the “bulls” were too strong and we have already closed the deal in order not to take risks.

19.10.2017 Thursday

A successful and pleasant deal was on Thursday. After entering the market, the price systematically went down to our take-profit and concurrently the support level, on which the flat was subsequently formed. As a result, we have earned 4.3% of the investment.

20.10.2017 Friday

The week ended with a good deal again on the GBP / USD pair. The formed pin-bar became a signal for the entrance to the purchase. Take-profit was at the previous significant level. Except for a few possible turnarounds, the deal went smoothly and brought a profit of 4.6%.

Summary of the week

Trade in the foreign exchange market was about 2 times better than in the previous week. It is not surprising, given that there is no bad deal. The main trade was made on GBP / USD and AUD / USD pairs, but only one transaction was carried out on the EUR / USD pair because we did not manage to catch more good signals.
