Shares of GDS - GDS HOLDINGS LTD, entry price 13.63 - exit price 15.88

This is definitely our most successful deal in the Penny Stock market. Actually trading in the market of cheap shares comes down to these deals. After the news on the company GDS HOLDINGS LTD, the price of securities began to grow with small interruptions for correction. There was a chance that we were already a little late and the whole deal would be in the flat, but it turned out to be much more pleasant.

After the opening of the deal, the price jumped sharply and went up for another two days. The plan was to reach the price of \$ 16 apiece, but we decided not to take risks and close the deal at \$15.88.
