**Share Price Movement**

Redhall Group plc (AIM: RHL), the manufacturing and specialist services group, notes the recent movement in its share price which the Board believes is in relation to this morning's announcement by the UK Government of its agreement in principle with EDF to proceed with the Hinkley Point C project.

The Board of Redhall considers that its businesses Booth Industries and Jordan Manufacturing, both of which have been responding to tenders for high integrity manufacturing for Hinkley Point C, are well placed to win work should the project progress.

Redhall will make a further announcement, as appropriate, in due course.
