Victory in eastern Ghouta!

The Syrian Arab Army (SAA) has just liberated the last terrorist-occupied areas in eastern Ghouta, where life is slowly returning to normal after years of brutal occupation by the sadistic western-backed jihadis, who had been using men, women, and children as human shields.

The British ruling class, and all western imperialists, however, view an independent Syria as an obstacle. Not only does it have natural resources and people to exploit, destroying the Syrian government will further isolate Palestine and Iran, and ultimately Russia and China.

So, instead of celebrating this victory over terrorism, British and other imperialists have now dreamed up another fake 'chemical weapons attack on his own people by the evil Assad' story, despite there being no logical rationale for any such attack. This dangerous situation is exactly like the Dodgy Dossier, which lied about President Saddam Hussein being about to use 'weapons of mass destruction' to justify invading Iraq.

It's because of this fakery that the Nato countries on the UN security council vetoed a UN resolution for an independent investigation into the concocted chemical attack at Douma, and why they don't want to wait for the UN's Organisation for the Prohibition of Chemical Weapons (OPCW) to make a report. The British government has also manufactured the dodgy Skripal case to encourage hostility towards Russia, again promising us that it has evidence while revealing none.

Rather than refuting these lies and celebrating the role of Russia and Iran in helping to liberate Syria, the spineless social democrats of the Stop the War Coalition (StW) have condemned those countries, as well as President Assad of Syria, for fighting the western-backed terrorists! While StW is busy mobilising for a Labour government, shadow cabinet members are hastily back-tracking from their original support for the strikes! If we really want to stop war, we must get rid of all those who pose as 'friends of the people' while binding our movement to the war chariot of imperialism.

A real anti-war movement must take as its central demands:

No cooperation with imperialist war; victory to the resistance!

We need to build an organisation of people who are prepared to challenge imperialist wars and unjust anti-working class cuts and attacks no matter who tries to implement them.
