

## BOARD EFFECTIVENESS REVIEW: NEW REQUIREMENTS

From 28 September 2018 you are required to review your chosen corporate governance code annually.

As part of this review, one of the key actions is to ensure you evaluate board performance based on clear and relevant objectives, seeking continuous improvement.

### Our service

Our board effectiveness review is designed to give you more time to focus on running your business.

We work with many small market cap AIM companies and understand the issues and sensitivities surrounding smaller company boards.

### Our approach

We discuss your needs and expectations in order to highlight any particular matters you need taken into consideration. We develop questionnaires that are flexible and tailored towards your requirements and budget.

The questionnaires are then sent to each director and we compare your results against your chosen corporate governance benchmark, providing recommendations to assist your board.

Board evaluations can identify areas of strengths and weakness, leading your organisation to make changes that positively impact performance and shareholder value.

### Fees

Our fees are competitive, starting from £750.
