

Sterling Services

Architectural Precast Specialists

Quantity Surveyor

£ Negotiable depending on experience

Permanent, full time position based in **Taunton, Somerset.**

8am – 5pm

We are a specialist sub-contracting business with contracts across the south of the UK and offices in Reading and Taunton. Candidate can be based in either and will be expected to travel as required. Typically we are working on between 6-12 projects at any one time and are a growing, successful business. As part of a larger construction group we are able to draw on wider skills, experience and resource.

Exceptional opportunities exist across the Group for the right candidate.

Primary functions will include:

- Assessing and negotiating contracts with main contractors.
- Collating and submitting monthly applications for all live projects.
- Assisting the estimator in producing tender documents and submissions. Take-offs from drawing, creation and pricing of BoQs.
- Assessment of variations and meticulous record keeping to maximise recovery. Liaison with clients & professional team.

We would expect the right candidate to have the following skills/experience:

- Good knowledge of building construction, understanding of construction contracts.
- Must be able to work independently and as part of a highly skilled senior management team of the business.
- Knowledge of precast, stone or facades in general is beneficial.
- All necessary IT skills is a given.

To discuss the role or to apply please contact Ian Jewell on **01823 481153** or email recruitment@sterlingservicesltd.com
