

**Found**  
**By DancingStrong**

An interactive dance and live music performance for young children and families.

*Found* is an engaging and lively 40 minute music and dance performance aimed at children aged 4-7 years and their families in theatre and educational settings. With live music and an invitation to audiences to play and participate, *Found* looks at what connects us to each other and our surroundings, drawing on stories of discovery, exploration and travel. Adrift on their own islands, the performers bring audiences into a magical world where connections become visible as soundwaves ripple through bodies and lines and angles converge in new journeys and forms.

Inspired by objects selected from local museums, *Found* was created through residencies with three primary schools. The show provides an adventure in colour, line, music and dance which children can enjoy and participate in, and feel free to be themselves.
