

CONTROL SYSTEMS

Micro-Link

The MICRO-LINK packs in most features of the OPTI-LINK, but in a small, handy package ideal for use in less equipped vehicles such as General-Purpose cars and easy to hide in covert vehicles. The MICRO-LINK offers six individual switches and a triple function 999, 'ARRIVAL' and 'RESET' switches.

Key Features

- Individual switches with clear interchangeable legends.
- Bespoke legends available.
- Back lighting on switches.
- Auto-dim of switches in low-lighting for minimal distraction at night.
- Low battery volts visual warning.
- Audible and visual warnings to confirm a switch is active.
- Sleep mode enabled.
- 'WALK TEST' function, to confirm system is working.
