

## CONTROL SYSTEMS

### Multi-Link

Woodway's new switch panel, the Multi-Link, connects to Whelen's CenCom Core™, with an all-new, sleek design.

Complete with your own bespoke coloured switch legend, using text or even symbols, this switch panel offers two way communication, complete with 15 fully programmable switches, programmed using the Whelen Command software.

With a 5 year warranty, the Multi-Link has been designed by Woodway to perfectly suit the needs of emergency service responders who choose the CenCom Core.
